Turin, 7 May 2021

FCA Bank's continues to introduce initiatives for increasingly sustainable and green mobility. In just one month after its launch, given the interest shown by customers, the Bank extends the innovative **GO4xe** financing also to the **Compass 4xe Plug in Hybrid** as well as to the Jeep® Renegade 4xe Plug In Hybrid, thus meeting the need of those who choose to drive the hybrid SUVs of the Jeep® brand in total serenity and without hassles.

The GO4xe financing makes it possible not only to **keep, replace or return the hybrid Compass** in relation to the contractual duration chosen (up to 5 years), but also to change it at each annual window (at 13, 25, 37 or 49 months, depending on the duration of the contract). Customers will thus be **able to replace the car with either another PHEV or a traditional-powered model**, applying for a new loan from FCA Bank: all with a small down-payment, affordable installments and no penalty in case of early termination.

In addition, applicants for a GO4xe loan in May will be able to enjoy an additional benefit of **€1,000**, made available by FCA Bank and Jeep to make the choice of sustainable mobility even more affordable.

The GO4xe financing is also the ideal solution for those interested in choosing the alternative driving mode provided by the hybrid range of the Jeep® brand, without worrying about anything, even in case of new needs.
